

COVID-19

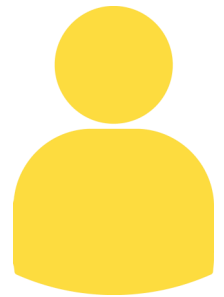

Ways to Stay Safe at Work

Social Distancing > 2m

Keep a minimum distance of 2m from everyone you come in contact with

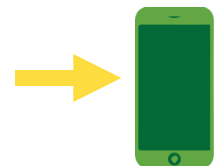

DISINFECT YOUR WORK AREA

Disinfect your entire work area **BEFORE** and **AFTER** each shift. This includes workstation, desktop, phone, Dictaphone and chair.

DISINFECT YOUR CELLPHONE

Disinfect your cellphone when you arrive and before leaving for the day.

WORK STATIONS

Fixed stations (nursing stations, office computers, conference rooms) should be disinfected daily. Shared computers must be cleaned after each use and hand hygiene should be performed before accessing. Assigned workstation are yours for the shift **DO NOT** touch someone else's desktop, computer, phone or Dictaphone.

WEAR FRESH UNIFORMS

Wear a fresh uniform for each shift. Change at the end of your shift, bag and launder your uniform at home. If you wear facility issued scrubs, they **DO NOT** leave the facility. Facility issued scrubs will not be issued to all staff.
