

Ear Protectors:

Proper placement of mask while wearing ear protectors

Ear protectors are a great solution for easing the pressure off your ears during continuous mask use. When using ear protectors you must ensure that they are used in a way that facilitates proper mask use by positioning the mask in the right place.

Ear protectors can come in many different shapes and sizes. Whatever you are using please make sure that they can be disinfected easily or laundered at the end of your shift/work.
