

COVID-19

Save Time: Screen at Home

The health care worker screening tool is available online.

You can access the tool using one of these options:

1. Enter this link into your browser
<https://public.ehealthsask.ca/sites/COVID-19/>
2. Scan the QR code below and click 'Open in Browser'

Remember to screenshot your result to show at the screening station.

On your iPhone:

- Use the Camera (Settings > Camera > Scan QR code is on);

On your Android:

- Use your camera; or
- Download a QR code App

Bookmark this page on your phone for future access.

At home screening is optional.
