

COVID-19

DID YOU KNOW?

ANY HEALTH CARE WORKER CAN TEST THEMSELF... AT HOME!

TAKE THE *TEST TO PROTECT*

AT HOME TESTING PROGRAM TRAINING!

1. TAKE THE TRAINING

Learn how to use our rapid antigen testing kits at home for yourself and your household! Training is available online and doesn't take much time to complete!

2. TEST YOURSELF

Once training is complete, stop by your designated pick up location to get a box of 25 tests to take home with you to test yourself on a regular basis.

3. TEST YOUR HOUSEHOLD

Testing yourself and the members of your household and knowing your status, is one of the best ways you can protect yourself and others, creating a safer home and work environment for everyone.

LEARN MORE

If you would like to learn more about the Test to Protect At Home Testing Program or even enroll in training, visit the [Testing, Screening, Treatment and Medical Devices webpage on www.saskhealthauthority.ca](https://www.saskhealthauthority.ca/testing-screening-treatment-and-medical-devices)
