SPEAKER	TOPIC	LEARNING OBJECTIVES
Dr. Jeff Betcher Departments of Anesthesia and Critical Care. Area Lead, Department of Critical Care, Regina.	Justice as a Virtue in the Time of a Pandemic	The contemporary understanding of justice in health care deals with the allocation of resources in a way that is equitable. A classical understanding of justice considers it a personal virtue that is relational in nature. This talk will discuss both of these aspects of justice as they apply to health care in general, and specifically in the time of a pandemic.
