

Provincial Long Term Care Partnership Council

Key messages - April 2024

#1

Ongoing working group activities to advance our two key working groups focused on
1) Development of a one-pager of appropriate, approved and preferred language/terminology to be utilized when referencing common terms, persons, environments, etc., within LTC.
2) Exploring how we to support local home-based Resident and Family Councils across the province

#2

Laurie Anderson joined to build connections between Accreditation activities and the Provincial LTC Partnership Council. We discussed how we can work together on future projects and assist with engagement needs for Accreditation priorities. Future contact will be initiated as this work is more defined.

#3

We said a heartfelt farewell to Elaine Feltis, who has been a Patient Family Partner for over 13 years and dedicated many hours and significant insight in LTC over these many years. Elaine will be greatly missed.

Recruitment is ongoing for both Resident & Family Partners as well as staff.

Next Meeting: May 28, 2024
