

Provincial Long Term Care Partnership Council

Key messages - June 2024

#1

We have been a council for over a year. We will complete an annual self-evaluation, allowing us to reflect on the work we have done, what we have done well and what we can improve upon. We will connect with some Resident and Family Partners over the summer as well to discuss further. Feedback will be shared with our group.

#2

A one page summary has been developed to send to homes when connecting with their resident councils to share information about our group. Resource development is underway to support connections with resident councils and timelines have been identified. The data collection form is ready as well.

#3

The Language working group shared the latest draft of the one-page language document. Once feedback is collected from the broader council membership it will be ready to go out for broad consultation across the province.

Next Meeting: August 27, 2024

Want to get in touch with the council?

Scan the QR code and complete the form or use the contact information below to get in touch.
