

Provincial Long Term Care Partnership Council

Key messages - September 2024

#1

We acknowledged National Day for Truth and Reconciliation coming up on September 30th. Resources for events occurring around the province were shared and all members were encouraged to attend activities near them. Welcome to Linnea Zeller, PFP, our newest council member. In the spirit of relationship building we enjoyed a fun ice breaker activity and plan to continue relationship building at future meetings.

#2

LTC Home visits have begun in order to hear from Residents, Families, and Staff across SK to better understand what is going well and what support is needed to make the Resident/Family Council at their Homes great! The visits and data collection will continue until December. In the new year we will review the data and begin to create tools and resources that will support Resident and Family Councils across the province in LTC Homes.

#3

The Language Working Group met to review the feedback collected from the broad consultation effort. The working group will collate all of the feedback and distribute the revised document to the council members for a final review and approval process.

Next Meeting: October 22, 2024
