Work Standard Summary: This work standard outlines the steps (**Non-Panorama Users**) on how to correct an immunization record error for a client in the Panorama Quick Entry Tool being used for recording COVID-19 immunizations.

Essential Tasks:	
1.	<ul style="list-style-type: none"> If you discover an immunization event entered in error (wrong date, wrong client, wrong agent, etc.) you can correct this by deleting the incorrect record and re-entering it correctly. <p style="background-color: yellow;">Take extra precaution before deleting an immunization event. It is imperative to ensure you are deleting what you documented and not another provider's correct immunization event.</p> <ul style="list-style-type: none"> Click on the Delete button next to the immunization event that is incorrect. You will be asked to confirm that you want to delete this record and then the updated Client Immunization Profile will be displayed.  <ul style="list-style-type: none"> You are now ready to enter the correct immunization information.
