

MEMO

DATE: October 3, 2022

TO: ALL SHA and Obstetrical Health Care Providers

FROM: Carrie Dornstauder, Executive Director, Maternal & Children's Provincial Programs
Dr. J. Sivertson, Provincial Head, Department of Obstetrics & Gynecology

RE: Maternal Sepsis Order Set

New provincial order sets are available for the initial and ongoing management and care of patients diagnosed with Maternal Sepsis. Thank you to a panel of experts across the province who contributed to this development. The order sets can be utilized at all sites who manage or care for an obstetrical patient.

- [Maternal Sepsis Order Set](#)

Additional resource documents are available to assist in early diagnosis including an algorithm which acts as a screening tool to assist teams when to implement the Maternal Sepsis Order Set with a positive sepsis screen.

Here is the [Maternal Sepsis Additional Information Package](#) which includes the [algorithm](#). Teams can print off the algorithm and post within patient care areas.

These documents can be found on the Moms and Kids Website under [Healthcare Provider Resources](#) and on the SHA website in [Clinical Standards and Professional Practice Order Sets](#).
